In our second edition, we have 16 international brands such as Aventura Swimwear from Cracia, Origin of Oceans from the USA, or the launch of May RoseSwim from France, adding between the brands and models attending, participation of talent from over 20 countries.

OUR STORY

OUR VISION

This type of event not only stands out for its ability to showcase new trends and emerging talents, but it can also position the island as an attractive destination for fashion and culture, in addition to its fame as a tourist destination.

We have a bohemian spirit and we are lovers of art and fun, that's why our event is more than just a catwalk.

We are a launching pad for young talents in the world of fashion, modeling, photography etc., who are looking for an opportunity to show themselves to the world.

We provide a friendly platform where we create working synergies that can serve the benefit of all parties involved in Ibiza Swim Week.
